## TECHNICAL SKILLS

**Programming Language:** JavaScript ES6+, TypeScript, HTML5, CSS

**Front-End:** Reacts, React Hooks, Redux Toolkit, Framer Motion, DOM manipulation

**Back-End:** Node.js, Express, MongoDB, MySql

**Tools:** Git, Github, VSCode, Postman, Salesforce

## PERSONAL PROJECTS

**Full-stack | Sticky Notes | [Live App](#)**

**Stack:** React, Node, Express, MongoDB

- Built **RESTful API** using **Node.js** and **Express**, for storage and retrieval of user's data in **MongoDB** to Front-end.
- Executed full-scale **CRUD** operations for data management.
- Implemented **JWT** and **bcrypt** for authentication, securely stored in the user's browser. • Enabled **drag-and-drop** functionality using **React**, **Axios** for communication with the **backend**.

**Front-End | OpenNFT (E-com) | [Live App](#)**

**Stack:** React, Framer-motion, Chartjs

- Integrated **Axios** to fetch external **APIs** to retrieve NFT data, **useContext** to manage states. • Implemented cart functionality managed by **useState**, enabling users to add and delete items in the cart. • Designed **Sorting Algorithms** to sort and filter NFTs based on user-defined criteria.

**Front-End | Typing Practice | [Live App](#)**

**Stack:** React, API, CSS

- Fetching Quote **API** randomly using **asynchronous function**. validate the user's input against the fetched quote, implement word authentication function using the **useState hook** to capture user's inputs and comparing to quote fetched from the **API**, the comparison is done using a **for loop function**.
- Implement **setTimeout function** to utilize the countdown. The timer is triggered when the user starts typing and uses **useState hook** update timer countdown dynamically.

## EDUCATION & CERTIFICATION

**Ramkhamhaeng University**

Bachelor of Business Administration in Information System

## PROFESSIONAL EXPERIENCES

**Manager Spice Restaurant and Zoob Zib , New York | 2020 - 2023**

- Achieved daily sales up to \$10,000, managed inventory **data**, generated sales reports. **Product Manager**

**Assistant at SL Lee Corp. and 8<sup>th</sup> Production (Garment Factories) New York | 2017 - 2020**

- Streamlined operations, saving **\$3,000** per run, and identified cost-efficient suppliers. • Oversaw inventory **database management** and coordinated schedules for 10-members and facilitated cross-functional communication.

**Hotel Administrator (Customer Service) at Traveloka | 2016**

- Provided top-tier customer support for hotel bookings, resolving inquiries and collaborating with partner companies such as Hotelbeds and Expedia to address booking issues efficiently.

**Data Entry at Gullivers Travels Associates (GTA) | 2015**

- Supported international branches by managing crucial **data** and maintaining well-organized **databases**.
